

EARTH DAY

LinkedIn Learning April Challenge: Protect Our Planet

Every year, **Earth Day** is observed on **April 22nd**. First held in the U.S. in 1970 to raise awareness for environmental protection, Earth Day is a day for us to **celebrate** and **protect our planet**. Today, Earth Day is celebrated by more than **1 billion people** in over **190 countries** and is widely recognized as the **largest secular observance in the world**.

This month, we're excited to honor our planet with **LinkedIn Learning's April Challenge**, kicking off **April 12th**.

Challenge yourself to participate every day – each one takes **~5 minutes** or less. Don't have time to participate every day? No problem. The purpose of this challenge is to explore new learning opportunities and resources available through your free [FSU LinkedIn Learning](#) membership. Happy learning!

Monday	Tuesday	Wednesday	Thursday	Friday
